Leawo iPhone Data Recovery is designed to offer iPhone, iPad, and iPod users an efficient and straightforward way to deal with data lost in the course of their use. As you will notice, the program features a very user-friendly interface and a wide range of features to retrieve your content. The three methods of data recovery are as follows: 1. Drag and drop your iPhone, iPad, or iPod to the input section of the application, then choose a scan mode. 2. Launch the program and select the file that contains the content you would like to salvage. 3. Choose a recovery method for your device. Keep in mind that, in some cases, the iTunes backup on your iPhone may have been corrupted and the backup file may not be able to be opened in Windows. If this is the case, you will need to use the method that involves connecting your iPhone, iPad, or iPod to your computer and letting Leawo perform its work. Leawo iPhone Data Recovery is the quickest and easiest way to retrieve iPhone, iPad, and iPod content that is lost as a result of an accidental deletion or the loss of access to a device. An easy-to-use program that can help you recover your data. Leawo iPhone Data Recovery can potentially be used by users who want to regain access to the content stored on their iPhone, iPad, or iPod. In fact, the app is designed to be able to perform data recovery on both the iPhone, iPad, and iPod. However, users will need to select an iPhone, iPad, or iPod device that has been successfully connected to their computer. Once this is done, you can have a look at the screenshots that Leawo iPhone Data Recovery has created from the device. The final data recovery results will be shown on a preview panel, which users can select according to what is relevant to them. Users will also be able to find out which of their applications have had data wiped from their iPhone or iPod device. All of the recovered content will be stored in the directory you specified. Leawo iPhone Data Recovery will allow you to not only recover deleted data but also to preview and sort the recovered content on your device.
